

KSM Scholarship Awardee: Philip Gogue Jr

In 2018, with the encouragement and support of the California Department of Rehabilitation (DOR), my Individual Plan for Employment (IPE) was to complete my undergraduate degree in Public Administration, and subsequently, San Diego State University M.S Rehabilitation Counseling program with the intent to become a Vocational Rehabilitation Counselor. I am currently beginning my second year in the Masters program and have been maintaining a 3.95GPA. I am also serving my second year as the Secretary of the Rehabilitation Counselors Student Association. My goal is to be employed with the Department of Rehabilitation or one of its affiliate organizations to help individuals with disabilities seek and maintain gainful employment. I am also very interested in specializing in vocationally serving Individuals with cognitive disorders and mental health issues. I am considering expanding and including course work towards the License Practitioner Clinical Counselor Program (LPCC).
